[continued from page 1.] been set aside as unconstitutional when it was difficult to point out the provisions said to be offended against in their enactment; all this has been done with In their enactment; all this has been done with a good purpose, no doubt, but in disregard, nevertheless, of the fact that ours is a Government of laws, not of men, deriving its "just powers from the consent of the government come, for the benefit of those who shall succeed us, we must ever be on our guard against the danger of usurpation of that authority which resides in the whole people, whether the in the whole people, whether the usurpation be by officials representing one of the three great departments of Government, or by a body of men acting without a commission from the

IMPATIENCE OF THE RESTRAINTS of law, as well as of its delays, is be-coming more and more manifest from day to day. Within the past few years many instances have been brought to our attention where in different parts of our beloved country supposed criminals have been selzed and punished by a mob, notwithstand-ing the fact that the Constitution of each state guarantees to every person within its jurisdiction that his life, his liberty or his property shall not be taken from him without due process of law

In a struggle between employers and employees, dynamite is said to have been used by the latter, resulting in the loss of life and the destruction of property. The perpetrators of this offense against the laws of God and man, and all others engaged in the conspiracy with them, should, after due trial and conviction, have bad metad out to and conviction, have had meted out to them the most rigorous punishment known to the law. This crime, added, to others, led to the formation of a committee of citizens that, with the support of the military authority, deports from the State, without trial support of the millitary authority, deports from the State, without trial, persons suspected of belonging to the organization of which the perpetrators of the dynamite outrages were supposed to be members. In both cases the reign of law gave way to the reign of force. These illustrations present some evidence of the failure of government to protect the citizen and his property, which not only justified the property, which not only justified the action of your Convention in this regard, but made it its duty to call at citizen is denied the right to labor, to acquire and to enjoy property, or to reside where his interests or inclination may determine; and the fulfill leges or immunities of citizens of the ment of the ment of the fulfill leges or immunities of citizens of the ment of t ment of the assurance to rebuke and punish all denials of these rights, whether brought about by individuals or Government agencies, should be en-forced by every official and supported by every citizen. The essence of good government lies in the strict ob-servance of Constitutional limitations, enforcement of law and order and rugged opposition to all encroachmen upon the sovereignty of the people. LAW VERSUS IMPERIALISM.

The foregoing suggestions but emphasize the distinction which exists between our own and many other forms of government. It has been well said, in substance, that there are but two powers in government, one the power of the sword, sustained by the hand that wields it, and the other the power of the law, sustained by an enlightened public sentiment. The difference in these powers is the difference of the service sentiment. ference in these powers is the difference between a republic—such as ours, based on law and a written Constitution, supported by intelligence, virtue and patriotism—and a monarchy—sustained by force exerted by an individual, uncontrolled by laws other than those made or sanctioned by him; one represents constitutionalism, the other imperialism. THE PRESENT TARIFF LAW

is unjust in its operation, excessive in many of its rates and so framed in particular instances as to exact inordi-nate profits from the people. So well understood has this view become that many prominent members of the Re-

particular instances as to exact inordinate profits from the people. So well punderated has this view become that any prominent members of the keep source of whose authority spring and was continuously to proceed, from the source of whose authority spring last year and the source of whose authority spring the source of considerable revenue the general sentiment on that subject the general sentiment on that subject extend the source of whose and the source of the source of whose and the source of whose and the source of t test we cannot hope to secure a majori-ty in the Senate during the next four ty in the Senate during the next load years and hence we shall be unable to secure any modification in the tariff save that to which the Republican selves, but for all the nations of the

CHANCES OF TARIFF REFORM. While, therefore, we are unable to While, therefore, we are unable to give assurances of relief to the people from such excessive duties as burden them, it is due to them that we state our position to be in favor of a research of a low out to be in favor of a research of a low out to be a low out to be in favor of a research of a low out to be a low o our position to be in favor of a reasonable reduction of the tariff; we believe of a single immigrant, nor induce the investment here of a dollar of capital. that it is demanded by the best interests of both manufacturer and consumer and that a wise and beneficent sumer and that a wise and beneficent try and the protection of the rights of the tariff can be accomplished as soon as both branches of Congress and an executive in favor of would be not only false economy, but it are elected without eventions that a protection of the rights of the rushed to the assistance of his son and attacked Franklin. A general instead of the result of the rushed to the assistance of his son and attacked Franklin. A general instead of the rush of t it are elected, without creating that sense of uncertainty and instability against the feeling, now far too prevalthat has on other occasions manifested that has on other occasions manifested itself. This can be achieved by providing that such a reasonable period shall intervene between the date of the enactment of the statute machines and broils of foreign countries; that the boy drew a knife. shall intervene between the date of the enactment of the statute making a revision and the date of its enforcement as shall be deemed sufficient for the industry or business affected by such revision to adjust itself to the changes and new conditions imposed. So confident an I in the belief that the demand of the resolution of the country in that attitude we mand of the resolution of the statute making a revision and that because we have grown great we should intervene in every important question that arises in other parts of the world. I also protest against the rection of any such military establishment as would be required to maintain the country in that attitude. We mony he had been asked to perform on insects, injurious of the statute boy drew a knife.

effective remedy would be to appropriately modify the offending law. THE COURTS NOT TO BLAME. The growth of monopoly, of which

complaint is justly made, cannot be laid at the doors of the Courts of this country The decisions of the Supreme Court of the United States, the Court the failure of officials charged with the duty of enforcing the law to take the necessary procedure to procure the judgments of the Courts in the appropriate jurisdiction, ccupled with the fact that the legislative departments of some of our State Governments, as well as Congress in the manural leady. or some of our state Governments, as well as Congress in the manner already referred to, have, by legislation, encouraged their propagation. What is needed—in addition to the passage of a statute revising the tariff duties to a reasonable basis—is not so much other and different laws as officials having both the discretion and the having both the disposition and the courage to enforce existing law. While

courage to enforce existing law. While this is my view of the scope of the commom law, if it should be made to appear that it is a mistaken one, then I favor such further legislation within constitutional limitations as will give the people a just and full measure of protection. FILIPINO INDEPENDENCE. It is difficult to understand how any citizen of the United States, much less a descendant of Revolutionary stock, can tolerate the thought of ary stock, can tolerate the thought of permanently denying the right of self-government to the Filipinos. Can we hope to instill into the minds of our descendants reverence and devotion for a government by the people, while for a government by the people, while denying ultimately that right to the inhabitants of distant countries, whose territory we have acquired either by purchase or by force? Can we say to the Filipinos, "Your lives, your liberty and your property may be taken from you without due process of law for all time," and expect we will long glory in that feature of Magna Charta, which has become incorporated in substance and effect, into the ed in substance and effect, into the Constitution of every State, as well as into the Fourteenth amendment to the Constitution of the United States? Can we hope for the respect of the civilized world, while proudly guaranoverpowering magnitude to the people that it is indispensable to the maintenance of a belitting attitude before the people not only that the Chief Magistrate should be independent, but that that independence should be enforced which shall abridge the privi-leges or immunities of citizens of the United States, or deny to any person the equal protection of the laws, and at the same time not only deny simi-lar rights to the inhabitants of the

the vicinity of Shantung. The officer son \$108, which was burned. commanding the squadron, baving examined and determined the extent of the damage to the ship, concluded that she could not make Vladivostok

and allowed her captain to proceed to Kiaochou for repairs.
"Those killed included Rear Admiral Withoft, Navigating Flag Lieut Azarieff, Navigating Lieut Draguisheuitch. Those slightly wounded in-cluded myself and eight others. A number of sailors were killed wounded, but just how many has not

yet been ascertained.
"I arrived at Kiaochou at 9 o'clock, in the evening, and found there the cruiser Novik and the torpedo boat

"I am happy to bear witness to your Majesty to the unexampled bravery of the officers and men dur-

ng the desperate encounter." JAPS WIN ANOTHER VICTORY.

A dispatch from Tokio says Vice Admiral Kamimura encountered the Russian Viadivostok squadron at noon Saturday north of Tsu Island, in the

Strait of Corea, and attacked the enemy at once. The battle lasted for five hours and resulted in a complete Japanese victory. The Russian cruiser Rurik was sunk and the cruisers Rossia and Gromotol fled northward after having sustained serious damage. Vice Admiral Kamimura cables the navy department that the injuries inflicted upon his vessels were slight. The fate of the crew of the Rurik is
